I was terrified coming to Aventa.
Once our group met the feeling of terror began to subside and then the trust came back.
The program really gets to the bottom (heart) of our problems and makes us face and deal with all our problems and fears, hopes and dreams.
The concellors and residential staff all go above and beyond to help.
This program has not only saved my life but also saved my relationships with my family + friends.

I am so happy that I made the choice to come to Aventa. It opened my eyes to alot of things that I never noticed before like how all my life I've been a follower and not a leader. Now that I'm leaving I have become more of the leader in some cases. I've also become alot more positive in the way I see things and notice when and with what I'm powerless over. I have been able to pray daily where as before Aventa never did once! Thank-you Aventa for the gifts you've given to my family & myself. The strength to move forward!!

I think I benefitted greatly from Aventa's trauma-based addiction program. The other treatment centers I had attended only addressed the addiction issue, and did not delve into trauma and mental health issues which led to the addiction.

I found that Aventa is very awesome, because the groups are helping you deal what is really (bothering you) to make you want to use.

Ah my dear Aventa House
You have helped me in
many ways. I have started
to talk about the past abuse
I suffered as a child. In
doing so I feel wanted
and loved, liked as a person
All my life I felt dirty, stupid
and ugly. You have taught
me tolerance and patience
You have re-inforced in me
the desire to never use again
The program is hard (in a good
way) I have shed many
tears. And I thank you

Having the support from my group of women was inspirational to me. I can leave Aventa with confidence, gratitude, and girlfriends. I have learned that it is okay to be alone, and to love who I am.
